

Interactive EDUcators™

Artificial Intelligence (AI) and Virtual Reality (VR) Training Experiences

WEDNESDAY 27TH NOVEMBER 4 - 5:30PM

Light Refreshments Provided

This Event is Designed to

- Help educators understand the benefits and applications of AI and VR in the classroom.
- Offer a practical immersive experience using VR headsets.
- Empower educators to boost students' critical thinking, problem solving and creativity.
- Provide educators with tools to further enhance student learning experiences and engagement.
- Help educators get ahead of the curve with modern technology.
- Provide an official certificate to all participants upon event completion.
- Professional Development: Earn up to 1.5 professional hours.

Benefits

AI

Acts as a virtual teaching assistant.
Can be customised to meet specific classroom needs.
Personalises Learning experiences.

VR

Transcends traditional classroom boundaries.
Enhances student engagement.
Acts as a tool to use on top of
traditional classroom learning.

Length: 90 minutes (with a 15 minute break)

Cost: \$48.50 PP
